ACUPUNCTURE INFORMED CONSENT TO TREAT

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by the acupuncturist who now or in the future treat me.

I understand that methods of treatment may include, but are not limited to, acupuncture, moxibustion, cupping, electrical stimulation, Tui-Na (Chinese massage), Chinese herbal medicine, and nutritional counseling. I understand that the herbs may need to be prepared and the teas consumed according to the instructions provided orally and in writing. The herbs may have an unpleasant smell or taste. I will immediately notify a member of the clinical staff of any unanticipated effects associated with the consumption of the herbs.

I have been informed that acupuncture is a generally safe method of treatment, but, as with all types of healthcare interventions, there are some risks to care, including, but not limited to: bruising, numbness or tingling near the needling sites that may last a few days; and dizziness or fainting. Burns and/or scarring are a potential risk of moxibustion and cupping, or when treatment involves the use of heat lamps. Bruising is a common side effect of cupping. Unusual risks of acupuncture include spontaneous miscarriage, nerve damage and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk, although the clinic uses sterile disposable needles and maintains a clean and safe environment.

I understand that while this document describes the major risks of treatment, other side effects and risks may occur. The herbs and nutritional supplements (which are from plant, animal, and mineral sources) that have been recommended are traditionally considered safe in the practice of Chinese medicine, although some may be toxic in large dosages. I understand that some herbs may be inappropriate during pregnancy. I will notify a clinical staff member who is caring for me if I am, or become pregnant, or if I am nursing. Should I become pregnant, I will discontinue all herbs and supplements until I have consulted and received advice from my acupuncturist and/or obstetrician. Some possible side effects of taking herbs are: nausea, gas, stomachache, vomiting, liver or kidney damage, headache, diarrhea, rashes, hives, and tingling of the tongue.

While I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known, is in my best interest. I understand that, as with all healthcare approaches, results are not guaranteed, and there is no promise to cure.

I understand that I must inform, and continue to fully inform, this office of any medical history, family history, medications, and/or supplements being taken currently (prescription and over-the-counter). I

understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

I understand that there are treatment options available for my condition other than acupuncture procedures. These options may include, but are not limited to: self-administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections, and surgery. Lastly, I understand that I have the right to a second opinion and to secure other options about my circumstances and healthcare as I see fit.

By voluntarily signing below, I confirm that I have read, or have had read to me, the above consent to treatment, have been told about the benefits and risks of acupuncture and other procedures, and have had an opportunity to ask questions. I agree with the current or future recommendations for care. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.
